## **DETAILED ACTION**

Page 2

## Drawings

1. The drawings received on 4/21/04 are accepted.

## Allowable Subject Matter

2. Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is that there cannot be ascertained prior art that anticipates or makes obvious the provisions of "daily stress cycle...mammalian body activities" and "compressive creep model for a single stress cycle" in combination with the other limitations presented in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Koyama et al (4,768,383) disclose a method of predicting the remaining lifetime of a metal material.

Manahan et al (4,567,774) disclose a miniaturized bend test for determining mechanical behavior of solid materials using miniature specimens.

Nishida et al (6,810,748) disclose a method for evaluating creep lifetime.

Application/Control Number: 10/828,976

Art Unit: 2855

Nishimura et al (4,907,457) disclose a method of evaluating the residual life of heat resistant

steel.

4. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Octavia Davis whose telephone number is 571-272-2176. The examiner can

normally be reached on Mon through Thurs from 9 to 5. The examiner can also be reached on

alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

Edward Lefkowitz, can be reached on 571-272-2180. The fax phone number for the organization

where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR system,

see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system,

contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
